

ThyssenKrupp Elevator

traditional fixtures

traditional fixtures for a timeless look

Our **Traditional** line of signal fixtures is a perfect match for any installation, whether new or modernized. Functional elegance, classic simplicity of design, and the comfort of familiarity combine to create a style that will always please.

Traditional fixtures offer numerous advantages:

- Fixtures are in full compliance with all national fire service codes for both the U.S. and Canada.
- Braille plates feature highly durable, cast tactile markings that meet the most stringent requirements.
- Illumination is provided by LEDs for extended life span.

Traditional Car Fixture Features

Our standard **Traditional** Car Fixture features include:

- Brushed stainless steel finish
- Applied Fire Service Phase 2 signage
- Buttons that illuminate white, accented with decorative black halos
- Position indicator that displays car location in hoistway with matrix of red, LED-illuminated dots
- Black, round, die-cast Braille plates with white, raised characters

Options include:

- A wide range of finishes and alloys
- Rath or EMS phones
- A fire phone jack
- Electronic dot matrix or light-up position indicators
- No Smoking symbol
- Fire service: choice of cast plaque or engraved signage

Traditional Hall Fixture Features

Our standard **Traditional** Hall Fixture features include:

- Brushed stainless steel finish
- Buttons that illuminate white, accented with decorative black halos
- Jamb symbols that comply with the most stringent Braille requirements
- Position indicator that displays car location in hoistway with matrix of red, LED-illuminated dots
- 2 1/2" triangular or round injection-molded, milk-white plastic lenses

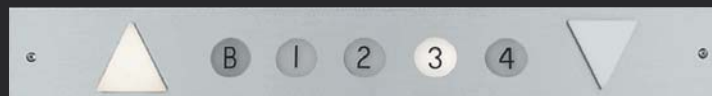

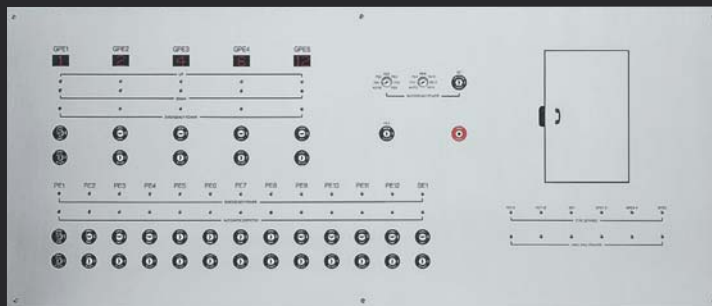

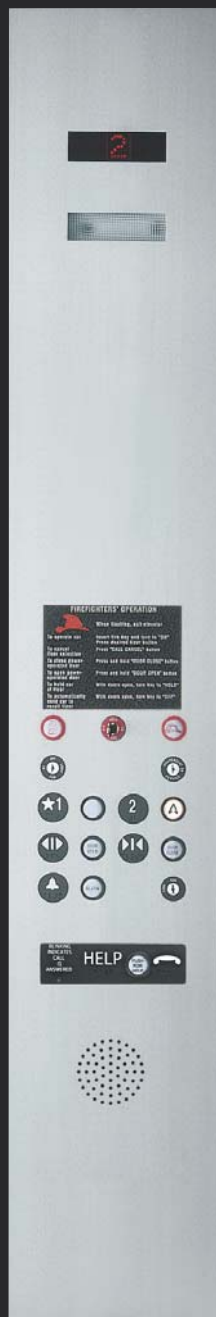

Options include:

- A wide range of finishes and alloys
- A fire phone jack
- Numerous styles of graphics and signage, including such standard signage as "In case of fire..."
- Lobby panel
- Combination hall lanterns and position indicators for sleeker design
- Electronic dot matrix or light-up position indicators
- EasyRiser for modernizing to meet Americans with Disabilities Act (ADA) requirements; faceplate is designed to cover existing cutouts
- A variety of hall lantern choices, including lenses without faceplates

Superior Products, Superior Service

At ThyssenKrupp Elevator, our quality standards are so stringent that no one comes close to providing more reliable and durable end products. The result? Peace of mind that comes from knowing we're completely committed to providing you with superior products, along with superior service that is second to none.
