ThyssenKrupp Elevator Announces Brad Nemeth as Director of Sustainability, Americas Business Unit

Frisco, Texas (November 17, 2009) – ThyssenKrupp Elevator, one of the world’s leading manufacturers, installers and service providers of vertical and horizontal transportation technology, announced today that Brad Nemeth has joined the company as the director of sustainability for the Americas Business Unit.

In this newly created position, Brad will be responsible for developing and implementing internal and external initiatives to strengthen ThyssenKrupp Elevator’s commitment to sustainability. He will work with the corporate, field, manufacturing, sales and marketing groups to formalize and maximize an ongoing sustainability program.

“Creating this position and filling it with such an experienced executive as Brad is illustrative of ThyssenKrupp Elevator’s dedication to sustainable practices,” said Stuart Prior, executive vice president, Americas product sales and marketing, COO Latin America and Brazil. “I am confident that Brad’s extensive experience with issues related to sustainability, coupled with his solid understanding of construction and manufacturing practices, will be hugely valuable as we continue our efforts in this area.”

Prior to joining ThyssenKrupp Elevator, Brad provided sustainability consulting services to various companies. He previously served as corporate director – global sustainability, environmental services, and product health for USG Corporation. At USG, he created corporate and global sustainability strategies, initiatives and objectives resulting in USG Corporation being the first international industrial

organization to publicly report its carbon footprint. Brad began his career as an engineer in manufacturing, with a focus on the triple bottom line. He also has extensive knowledge and experience in operations, technology and product development.

About ThyssenKrupp Elevator

ThyssenKrupp Elevator, Americas Business Unit, is the largest producer of elevators in North America, with nearly 14,000 employees, more than 200 branch and service locations, and sales of around 2.8 billion US dollars. ThyssenKrupp Elevator, Americas Business Unit, oversees all business for the operations in the USA, Canada, Central and South America. It is part of one of the leading elevator companies in the world, represented at over 800 locations in more than 60 countries. With over 40,000 employees, the company generated sales exceeding 5.0 billion euros in the fiscal year ended September 30, 2009. Its capabilities include passenger and freight elevators, escalators and moving walks, stair and platform lifts, passenger boarding bridges as well as quality service for all products.

ThyssenKrupp Elevator is a part of one of the two business divisions of ThyssenKrupp AG, a global conglomerate with business activities focused on the areas of materials and technologies. The conglomerate has almost 190,000 employees in more than 70 countries, with sales totaling over 40 billion euros. ThyssenKrupp operations can be found in every state in the U.S. There are approximately 70 ThyssenKrupp business entities accounting for nearly 21,000 employees and more than 7 billion US dollars in annual sales with customers in the U.S.
